Top 10 GO BP terms enriched in Collagen High (rGBM)
Positive NES only (Collagen_High > Collagen_Low) | ranked by BH FDR then NES
cytoplasmic translation
aerobic electron transport chain
proton motive force-driven mitochondrial ATP synthesis
mitochondrial ATP synthesis coupled electron transport
ATP synthesis coupled electron transport
proton motive force-driven ATP synthesis
mitochondrial electron transport, NADH to ubiquinone
NADH dehydrogenase complex assembly
mitochondrial respiratory chain complex I assembly
respiratory electron transport chain
