antigen processing and presentation of peptide antigen
collagen fibril organization
antigen processing and presentation
positive regulation of tumor necrosis factor superfamily
cytokine production
B cell mediated immunity
immunoglobulin mediated immune response
adaptive immune response
integrin−mediated signaling pathway
based on somatic recombination of immune
receptors built from immunoglobulin superfamily
lymphocyte mediated immunity
tumor necrosis factor superfamily cytokine
domains
regulation of tumor necrosis factor superfamily cytokine production
regulation of adaptive immune response
monocyte cell migration
somatic recombination of immune receptors built from immunoglobulin superfamily
leukocyte mediated immunity
regulation of adaptive immune response
leukocyte chemotaxis
leukocyte migration
positive regulation of cytokine production
cell chemotaxis
regulation of immune effector process
